

## **DORTMANN 8000 HOT AIR SYSTEMS FOR THE FLEXO INDUSTRY**

### **DORTMANN 8000 SYSTEM WITH SKID, AND CLOSED LOOP CONTROLS**

**Blower  
Control  
Heater  
Skid**

**DORTMANN 8000  
Nozzle Assembly**

The complete Dortmann Drying System includes a Nozzle Assembly, and skid containing the control panel with temperature controller, electric heater, blower and transition ducts to simplify field installation.

- Nozzle length depends on line speed, substrate and ink lay down
- Dortmann 8000 Nozzles are designed to fit in tight spaces and deliver uniform drying.

### **DORTMANN System With Simple Controls**

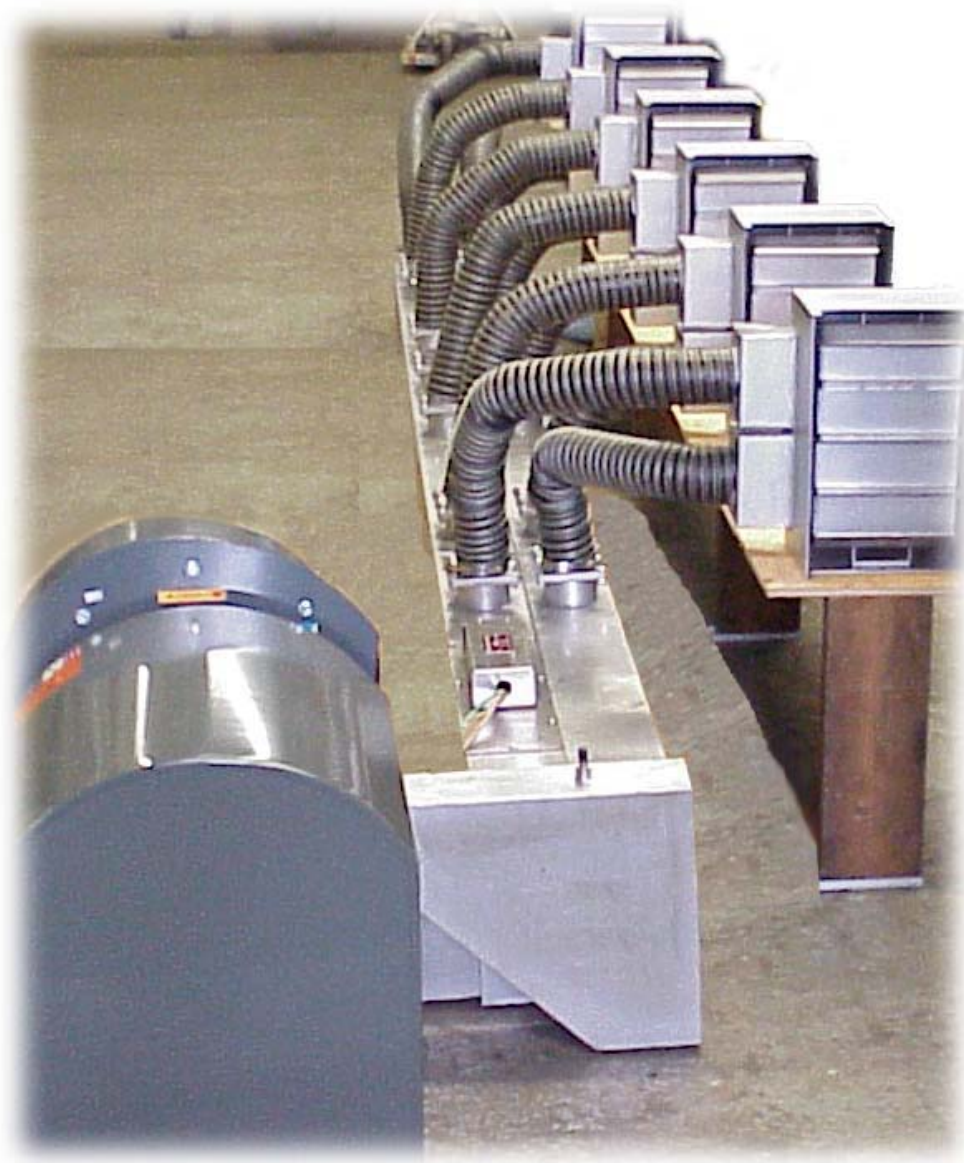

- High velocity means high efficiency
- Low temperature – can run LDPE, HDPE
- Speeds up to 500 fpm with 12" nozzle
- Excellent value for your investment

### **Wide Web Dortmann**

- Widths 6" to 102"
- Compact size – fits in tight spaces
- Excellent for water based inks

**DORTMANN 8000 DRYING SYSTEM for  
SIX COLOR FLEXPRESS**

This Dortmann Interstation Dryer is specifically designed for drying waterbased flexo inks on film, paper or foil.
